ABOUT ME

Passionate Frontend Developer with hands-on experience in building responsive, interactive, and accessible web applications using **ReactJS, JavaScript, HTML, and Tailwind CSS**. Strong focus on **clean UI/UX**, performance optimization, and real-world problem solving. Eager to contribute to innovative frontend projects and grow as a **React developer** in a collaborative environment.

TECHNICAL SKILLS

Programming Languages: Java, Python, C, JavaScript
Web Technologies: HTML, CSS, Tailwind CSS, DOM, ReactJS
Tools: Git, GitHub, VS Code
Soft Skills: Leadership, Time Management, Communication

PROJECTS

EnviroVista – Frontend Developer

- Built a responsive web app using HTML, CSS, and JavaScript (DOM) in the Green Credit Management domain.
- Designed interactive UI features including dynamic tasks and rewards to promote eco-friendly actions.
- Reached finals at SAP HackFest 2024 (National-level recognition)

ProjeCure – Frontend Developer

- Created a disease prediction platform in a 48-hour hackathon, focusing on predictive analytics.
- Developed a responsive frontend using HTML, CSS, Tailwind CSS, and JavaScript, visualizing disease likelihood using previous data.
- Secured 4th place in the Data Analytics domain, recognized for real-world impact and clean UI.

KEY CONTRIBUTIONS

Responsive Design: Developed fully responsive layouts ensuring seamless user experience across all devices.

JavaScript Enhancements: Optimized JavaScript for smooth, interactive UI functionality.

UI/UX Optimization: Improved UI/UX design, enhancing navigation and usability.

Dynamic Image Scrolling: Implemented automated and horizontal scrolling for improved interactivity.
